

Letters of Concern and Orders for Non-Disciplinary CEU

A Letter of Concern is defined in A.R.S. 32-1501 (12) as a "Non-disciplinary advisory letter that is issued by the board to a person who is regulated under this chapter and that states that while there is insufficient evidence to support disciplinary action the board believes that the person should modify or eliminate certain practices and that continuation of the activities that led to the information being submitted to the board may result in action against the person's license, certificate or registration." The Board may also Issue a "nondisciplinary order" requiring the licensee to complete a prescribed number of hours of continuing education in an area or areas prescribed by the board to provide the licensee with the necessary understanding of current developments, skills, procedures or treatment.

Name and Designation	License / Certificate Number	Complaint Number	Complaint Detail	Effective Date
Dr. Nicole Barreda	03-733	08-040	Insufficient evidence to support disciplinary action. Consent Agreement for 8 hours of non-disciplinary continuing medical education. In May 2008, HC, a 71 year old female with a history of diabetes mellitus type 2, hypertension, hypothyroidism and breast cancer, began seeing Respondent for weight loss. Respondent did not perform a physical examination, instead relied on HC's primary care physician's physical examination. Respondent placed HC on a weight loss program that included restricted calorie intake, drinking 3-4 liters of water a day, and self injections of HCG. HC was hospitalized on July 20th, 2008 with severe symptomatic hyponatremia. Respondent is ordered to complete 8 hours of CME addressing weight loss programs and the elderly diabetic patient.	5/21/09
Dr. Alan Christianson	96-474	08-021	Insufficient evidence to support disciplinary action. Letter of Concern issued for: Failure to first establish a PSA baseline, conduct a digital rectal examination or otherwise rule out prostate cancer, prior to prescribing and administering Depo-Testosterone to a patient.	3/12/09
